Becki Swindell was born and raised in Arkansas. She graduated from Henderson State University with a B.A. in Fashion Merchandising. She has fueled her creative side for the past ten years designing wire and bead glassware pieces that are sold in a local boutique gift shop and over the internet. Most recently she started designing frames made of metal and wood. She feels her pieces allow for a personal touch as they can be custom ordered to fit the buyers tastes.

When Becki isn't busy creating, she spends her professional time as Associate Manager of the American Diabetes Association where she is in charge of fundraising and special events. On a personal note, she has been married to Chris for 23 years. They have two teenagers, Ashley and Dalton.
